

Free Fraud Alerts From AllClearID

Identity theft is no joke. One in 15 Americans was affected in the last year, up from one in 20 the year before. Thankfully, there's help. If you're a Texas Legal member, free identity theft monitoring and protection through **AllClearID** is already included, but we're happy to announce a new service: fraud alerts.

Fraud alerts prevent a thief from using your social security number to open a new account. They're a great measure to protect your identity, **especially after the Equifax breach.**
