You've got health insurance for when you get sick. You have homeowners insurance for when disaster strikes at home. Maybe you've even got life insurance to make sure your family is taken care of if the worst happens. But what if an unexpected legal issue comes up? Every year, one in five Americans faces a legal issue. Will this be your year? Maybe your dog bites the neighbor's kid, or you need to get power of attorney for a loved one. Perhaps you never got around to writing a will or you and your spouse need help adopting a baby. Lawyers can be expensive. Did you know most lawyers charge a few hundred dollars an hour, and those hours can rack up quickly? That's where Texas Legal comes in. We were created by the State Bar of Texas to help everyday Texans with affordable access to qualified lawyers. With plans as low as \$10 a month, you can have a lawyer at your side ready to help you without the high hourly fee. Just like your health insurance lets you choose from a network of doctors who they pay to keep you healthy, Texas Legal allows its members to get legal help whenever they need it from qualified licensed lawyers who are experts in their field.
