Your Plan Continues to Deliver Exceptional Value and Protection

Even with recent plan adjustments, your Texas Legal coverage continues to offer substantial financial value and peace of mind. Much like car insurance protects you from paying the full cost of an accident, your Texas Legal plan shields you from the high expenses of legal services. It's easy to focus on smaller changes, but the real value lies in what you avoid paying out of pocket.

For example:

- **Divorce:** A contested divorce can cost between **\$7,200–\$24,000+** if paid privately. With your plan, those same services would cost approximate \$2,000 – \$15,000+.
- **Estate Planning:** A standard estate planning package (such as a Will and Medical Power of Attorney) can cost **\$1,000–\$3,500** — yet members receive these essential documents at no additional charge.

2026 Silver Policy (Previously Select) — Summary of Benefit Changes

- **Hourly Legal Work:** For matters billed hourly, and the **average attorney rate in Texas now around \$300 per hour**, your plan includes a **25% discount** off the attorney’s standard rate— savings that can easily amount to hundreds or even thousands of dollars over time.

Your membership is designed to make quality legal help accessible and affordable when it matters most — protecting you and your family from the kind of expenses that can add up quickly without a plan in place.
